## Game Setup & Controls

1. Place `database.sqlite` in the same directory as the executable ( `exe` ) before running.
2. Control scheme:
  - **A/D**: Move left/right
  - **J**: Attack
  - **K**: Dash
  - **L**: Heal

## Save System

- During gameplay, closing the program triggers a confirmation dialog asking whether to save progress.
- Upon relaunch, if a saved game exists for the current level, the program will prompt to load the saved data.
